The DMS Healing Arts Project

Mission Statement.

use holistic arts and therapy's to help heal and soothe the emotional and mental health effects of abuse or reduce the symptoms in mental health conditions by using various therapies;

The AVS Project

"DMS Healing Arts" works in tandem with our A.V.S. project (Abuse Victim Support) Darkness Makes Sense project and encourages abuse victims and individuals with mild to moderate mental health conditions to participate in various art forms as a means of recovery and overcoming mental health conditions.

For more information on this programme please see the AVS Project tab on the darknessmakessense.com website.

The AVS Approach

Scientific studies tell us that art heals by changing a person's physiology and attitude. The body's physiology changes from one of stress to one of deep relaxation, from one of fear to one of creativity and inspiration.

Art and music put a person in a different brain wave pattern, art and music affect a person's autonomic nervous system, their hormonal balance and their brain neurotransmitters.

Art and music affect every cell in the body instantly to create a healing physiology that changes the immune system and blood flow to all the organs.

Most stresses and structural dysfunction have their roots and their causes in the mind and the heart. -

Gerry Pyves, No Hands Massage.

Art and Music also immediately change a person's perceptions of their world. They change attitude, emotional state, and pain perception. They create hope and positivity and they help people cope with difficulties. They transform a person's outlook and way of being in the world.

In this way the AVS project helps you recover your natural rhythm and learn to shine again. You are not alone, we are here for you.
